*Students will be administered the assessment during this testing window; however, it is not the actual number of days it takes a student to test. The two types of modes are computer and paper and pencil; some computer-based assessments allow students to take the assessment using paper and pencil. Be sure to inquire about the options if your son/daughter has a medical issue that would not allow him/her to take the assessment on the computer.

** Most students will be allotted approximately 4 hours of testing time. Students with special needs may be allotted additional time to complete testing. If a student is permitted extra time or any other accommodations by their IEP, parent/guardians should contact their guidance office for additional details on accommodations and accessibility options.

*** This column indicates when the reports will be sent home to parents.
